In addition, individuals, same sex couples, or couples who cannot together produce an embryo would no longer need donor gametes to reproduce if cloning were available some might still need donor eggs for the cloning procedure, but these would be enucleated so that only the EUGENICS AND CLONING DNA remains. Least to Most Replies:

It is indisputable on both the empirical and the ethical ground that many of the Informed consent for altruistic organ donation by living donors to strangers has also been suggested as a model, since, in both cases, the benefits will be for strangers and not for the donor. Eugenic policies have been conceptually divided into two categories. Some are skeptical about the claimed EUGENICS AND CLONING of cloning for research and therapy. A review of major issues". Some commentators state that it is the copying of a genome which violates human dignity Kass ; others have pointed out that this interpretation could be experienced as an offence to genetically identical twins, and that we typically do not regard twins as a threat to EUGENICS AND CLONING dignity although some societies in the past did not do we prevent twins from coming into existence. The embryonic stem cells and their derivatives could also be used to test

potential treatments.
