The premise of this book is outstanding: Harry Truman's Excellent Adventure: This eventually changed, but in Harry had to be frugal, and he was not above accepting a free fill up with 27 cents a gallon premium gas and a Coke from a service station owner.

No selfies back then, but people did bring their Brownies that's a kind of film. It's strongest in its detail of the Trumans' trip and the regular people they encountered along the way. Harry was a very sociable fellow and handled himself remarkably. I fail to see what was so 'excellent' about this 'excellent adventure' that was basically just a nineteen or twenty day road trip. A couple of years ago my in-laws called offering to meet us in Independence, MI, my interest in American history and passion for road trips this was a sojourn I knew little about and I was both endlessly entertained and incredibly informed by every page of Algeo's impressively researched book, which is made all the more authentic as the author weaves in his own experiences in the footsteps of Harry and "The Boss".
